Menfez Tipi Grille Type	H1 (mm)	H2 (mm)
RG - LG - EG - CG Zıt Damperli With opposed blade damper	70	-----
RG - LG - EG - CG Paralel Damperli With parallel blade damper	-----	60
SG Zıt Damperli With opposed blade damper	90	-----
SG Paralel Damperli With parallel blade damper	-----	80

- Damperler hava miktarını ayarlamak amacıyla kullanılmaktadır.
- İki tür menfez damperi vardır; paralel kanatlı damper ve zıt kanatlı damper.
- Damperlerin kanatları ve çerçevesi haddelenmiş alüminyumdan mamul olup, kanatların ayarı çok kolaydır.

- Grille dampers are used to regulate air quantity of a grille
- There are two type of grille dampers; parallel and opposed blade.
- Damper blades and frames are made from extruded aluminium profile and the adjustment of blades is very easy.
